

Cash Pay Per Visit

We feel it is important to support our patient's health journeys and personal beliefs, so we will continue to see non-member patients as we are able. Our local community has scarce resources available for those who seek a more personalized path, that may vary from the traditional norm. We feel strongly that this should not limit access to care and this is why we are keeping appointments available for non-urgent matters on a limited availability (currently, one day per week).

Provider: Dillon Lambert, FNP-BC, Owner
